

IALA COUNCIL
71st session**3 and 4 June 2020**
Video conference**8 – STRATEGY AND POLICY*****8.2 – Policy Advisory Panel*****8.2.2 – Workshop proposal on Marine AtoN in the autonomous world**

Note by PAP

INTRODUCTION

The PAP 39 was briefed on the outcomes of a recent International Meeting on MASS organised by the Japan Coast Guard held in Tokyo in February 2020. The purpose of the meeting was to consider the provision of guidance as to how shore-based infrastructure may need to be considered to accommodate the safe and efficient navigation of MASS. The panel made several recommendations related to MASS and the work of IALA.

The JCG had submitted a proposal to PAP 39 for a Workshop on MASS to be held in Tokyo, Japan. The PAP agreed and reviewed the Workshop proposal and made updates as well as changed the name of the Workshop to 'Marine Aids to Navigation the autonomous world'.

The Workshop on Marine AtoN in the autonomous world is planned to take place back to back with ENAV27 in March 2021.

THE COUNCIL IS REQUESTED TO

Approve the workshop proposal.

Annex
