1. INTRODUCTION

The International Association of Marine Aids to Navigation and Lighthouse Authorities (IALA) is a specialized organization for world-wide improvement and harmonization of Marine Aids to Navigation.

The term “Marine Aid to Navigation” referred to in the Constitution of IALA, should be understood to be device, system or service, external to vessels, designed and operated to enhance safe and efficient navigation of individual vessels and/or vessel traffic. For the purposes of IALA this definition includes vessel traffic services.

IALA publishes non-mandatory standards, recommendations, and guidelines, defined as follows.

Document	Definition
IALA standard	An IALA standard is a part of a framework, the implementation of which by all coastal States will harmonize Marine Aids to Navigation world-wide. IALA standards cover technology and services and are non-mandatory.
IALA recommendation	An IALA recommendation specifies what practices shall be carried out in order to comply with that recommendation, and may be referenced, in full or in part, in an IALA standard.
IALA guideline	An IALA guideline describes how to implement practices normally specified in a recommendation.

2. PURPOSE

In accordance with articles 2 and 3 of its Constitution, and its Strategic Vision, IALA formulates and publishes standards to achieve the safe, economic and efficient movement of vessels, through improvement and harmonization of Marine Aids to Navigation world-wide.

3. APPLICATION

This Standard is suitable for implementation by Marine Aids to Navigation authorities.

4. SCOPE

IALA standards may contain normative and informative provisions.

Normative provisions are those with which it is necessary to conform in order to claim compliance to the Standard.

Informative provisions are those which specify additional desirable practices but with which it is not necessary to conform in order to claim compliance to the Standard.

This Standard references normative and informative provisions, detailed in the listed IALA recommendations, covering the following scope:

- S1010.1 Obligations and regulatory compliance
- S1010.2 Aids to Navigation planning
- S1010.3 Levels of service (objectives, availability and categories)

- S1010.4 Risk management
S1010.5 Quality management

5. REFERENCED DOCUMENTS

In this Standard, any reference to a recommendation is to the most recent version approved by the IALA Council.

In this Standard the word 'shall' is used to indicate that a provision is normative and is to be followed in order to comply with the Standard. The word 'should' introduces informative provisions.

The following recommendations are normative provisions, and shall be observed if compliance to this Standard is claimed.
