Strategic Vision in 2014 and goals for 2026

Goal 1

- Ensure that aids to navigation systems and related services, including e-Navigation, Vessel Traffic Services, and emerging technologies, **are harmonised through international cooperation and the provision of standards.**

Goal 2

- All coastal states have contributed to an **efficient global network** of aids to navigation and services for the safety of navigation, **through capacity building and the sharing of expertise.**

The Academy's role in the Strategic Vision

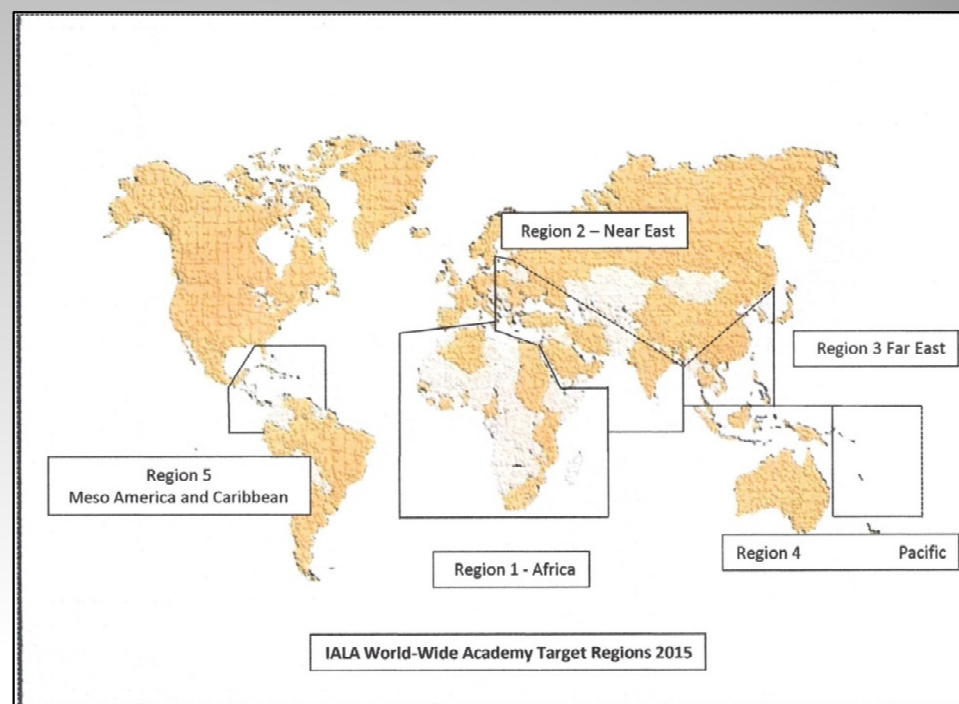

- **Goal 2:** All coastal states have contributed to an efficient global network of aids to navigation and services for the safety of navigation, *through capacity building and the sharing of expertise*
- *Capacity Building is the development and strengthening of human and institutional resources. AtoN authorities in developing countries are obliged to deliver AtoN services, but sometime lack the capacity to do so. The Academy actively facilitates that process through **technical missions and training events***
