Liaison Note to IALA Legal Advisory Panel

The EEP Committee requests the IALA Legal Advisory Panel to comment on our proposal in relation to a Guideline on Contracts for Complimentary Use of Lighthouses. It is suggested that we will prepare a guideline which would advise members on what should be covered by a contract in form of a check list. We then propose to enclose in an annex some examples of contracts which are currently in use by other members. Would there be any legal implications for IALA if we include the examples of contracts or could we have some assistance on an appropriate disclaimer for inclusion in the guideline.

The Legal Panel is further requested to provide this information by August 2007 to allow a draft Guideline to be prepared intersessionally prior to EEP 10 (October 2007).
