LIAISON NOTE

Progress on Cyber Security tasks and review request

1 INTRODUCTION

This Liaison Note informs the IALA Technical Committees on the progress of the task to provide guidance on cyber security, that is on the work programme (2017-2022) for the ARM committee.

This Liaison Note replaces previous requests for input.

Over the period 2020-2022, ARM, other committees, joint task groups and the Cyber Security Workshop in November 2021, have been discussing Cyber Security within the IALA domains. Following the latest input from the ENAV and ENG Committees, ARM16 has finalised a recommendation on Cyber Security for the IALA domains. Furthermore, the input from the ENAV, ENG and ARM committees have been included in a draft Guideline. To progress on this urgent matter, also VTS-Cyber Security matters have been included by the ARM committee.

2 ACTION REQUESTED

- 1 The VTS committee is requested to review the amendments on VTS-Cyber Security in the draft Guideline in annex 1;
- 2 All technical committees are requested to review and amend the draft Guideline in annex 1;
- 3 The IALA secretariat is requested to monitor the review progress and make sure all committees are using the latest reviewed version of the guideline.

3 ANNEXES

- 1 DRAFT Guideline on Cyber security – post ARM16 (VTSS4-9.4.1.1)
