In preparation for the next four year period the IALA questionnaire has been revised with contributions from all committees and is an output document from ANM21.
  - Council on the NAVGUIDE. The ANM Committee is pleased to report that the review of the IALA NAVGUIDE is complete. A Word document of the latest version of IALA NAVGUIDE has been submitted for review and approval of its textual content only. This document is not print ready and is not for external distribution and is only for internal IALA assessment. In anticipation of the next review, the ANM Committee debated various aspects of the IALA NAVGUIDE. Specifically, the usefulness of a printed copy versus an electronic version was widely discussed.

Many members expressed the need for a printed summary copy while advocating for a more comprehensive electronic version such as a Wiki or another navigable on-line system that is fully integrated with the various Guidelines and Recommendations.
