#### C64-11.4.INF1 – Liaison note to ITU-R Working Party 8B – Towards a Preliminary draft new Report ITU-R M

Note by the Secretariat

#### **1. GENERAL**

On 28<sup>th</sup> March 2017 the Council was invited to approve a liaison note to ITU-R Working Party 8B by correspondence. To conform with the deadline for submissions to ITU the Council was invited to respond by 7<sup>th</sup> April, with a warning that silence would be taken as approval.

The ENAV Committee comment on this document was the following: *“A mature document ready for submission to WRC19 by ITU WP5B was completed. However, it is recognised that ITU WP5B may require further input and justifications before the final deadline of May 2018 for document submissions to WRC19 therefore it is prudent to provide this mature document at the upcoming May 2017 meeting of ITU WP5B.”*

There was no objection to the note being forwarded to ITU and the document was submitted on 10<sup>th</sup> April and acknowledged the same day.

#### **2. THE COUNCIL IS REQUESTED TO**

**Note** that the document at input paper C64-11.4.INF1.1 was approved by correspondence and submitted to ITU.
