

**IALA COUNCIL
65th session****12-15 December 2017
IALA Headquarters****11 – IALA TECHNICAL ACTIVITIES****11.1 – ENG****11.1.5 – NAVGUIDE – 2018 Edition**

Note by the Secretariat

1. INTRODUCTION

The Committees have been reviewing and updating the IALA Navguide, coordinated by the ARM Committee, which completed the work at its 7th session.

The Secretariat then updated the Foreword and the introduction to IALA for approval of the whole document at Council 65 with a view to have the new edition launched at the 2018 IALA Conference.

2. VERSION TO APPROVE

The version submitted is a text-only version (with embedded illustrations, adapted from the Wiki, which was the tool used for updating the Navguide).

Once approved, the text and illustrations will be professionally designed to produce a book that will conform to the IALA document standard.

3. THE COUNCIL IS REQUESTED TO

Approve the new edition of the Navguide and its further processing for publication.
