

IALA COUNCIL
69th session

18-21 June 2019
Rotterdam
The Netherlands

8 – STRATEGY AND POLICY

8.2 – Position on the Development of AtoN Services

Note by the Secretariat

INTRODUCTION

Council 68 considered the draft revised *Position on the Development of AtoN Services* and came to the conclusion that:

The Position on the Development of AtoN Services will be reviewed by PAP at its 37th session in February 2019 to look deeper into GNSS backups, sent to the Committees (especially the ENG Committee) and brought back to Council in June 2019 after the draft amended by the Committees has been endorsed by PAP by correspondence.

At the request of PAP37 the Secretariat forwarded the draft revised document to all Committees with the aim of harvesting comments from participants for further consideration by PAP.

DISCUSSION

The Committees, which met during the period 25 February – 3 April, came back with numerous comments on various parts of the document. After careful consideration, the Secretariat believed that producing a consolidated revised document would require careful work, which would exceed the deadline for submissions to Council 69 and would not allow PAP to review it.

The Secretariat therefore suggests forwarding the consolidated document to Council 70 in December 2019 after it has been reviewed by PAP38 in September.

THE COUNCIL IS REQUESTED TO

Note the information provided.
