

10 – TECHNICAL ACTIVITIES

10.2 – Committee work organization

10.2.3 –Committee work programme 2023-2027

Note by the Secretariat

1. BACKGROUND

In accordance with the General Regulations, PAP, based on the inputs from the Committees, is developing a consolidated work programme for the next quadrennial 2023 – 2027 for approval of the Council.

The purpose of the Work Programme is to clearly identify any items of work with outcomes and priorities, taking account of the Strategic Vision, the current Drivers and Trends, and the IALA Position Document on the development of Marine Aids to Navigation. The work programme will cascade down to the committees' work plan, where more detailed tasks can be recorded and assigned.

PAP is working on the draft Work Programme 2023-2027 to ensure there is no conflicting or duplicated work, and the document will be finalized at the PAP 49 session in March 2023 and will be approved at Council 78 on 3 June 2023 in Brazil.

2. THE COUNCIL IS INVITED TO

Note the information provided.
