DIRECTEMAR - CHILEAN NAVY

79nd session of the IALA Council

National Matters

Concerning the Change of IALA status, after signing the document of the Convention, we are currently taking the necessary steps for the ratification by our National Congress. The process is well underway and we hope to have good news soon.

On the other hand, we are developing together with IALA, a course on Risk Assessment Tools, particularly SIRA and IWRAP, which will be held in person, presumably during May 2024 and will be aimed mainly at Spanish-speaking countries and also will be delivered in English.

MARITIME SIGNALING AND AIDS TO NAVIGATION SERVICE
